Automobile of Ezio Pagani of 1612 East Washington street following crash of his car with the tandem trucks of a trailer operated by William Krugman, near Edenburg on route 224. Man Injured In Unusual Crash

Wheels Knocked Off Of Tractor-Trailer, And Run Down Hill Into Auto

One man was injured and is in the Jameson Memorial hospital, the result of an unusual accident between a tractor, semi-trailer and an auto on the hill, west of Parkstown Corner, on Route 224, at 7:05 p.m. Wednesday.

The injured man, Ezio Pagani, 25, of 105 East Wabash avenue, city, drove a Chevrolet, and at the Jameson Memorial hospital today he was reported to have a dislocation of the left hip, abrasions and contusions of both knees, and right elbow and chin.

According to State police, the tractor, and semi-trailer, going west, loaded with inoleum, was operated by William Krugman, 130 West 69th street, Chicago. The car, traveling east, was operated by Pagani.

Krugman told the police that something went wrong with the rear of his trailer which is a tandem affair, or two axles and four wheels. The tractor, semi-trailer struck a guard fence then ran into a cement bridge at the bottom of the hill, beyond Parkstown corner. The two axles and wheels were sheared off causing the wheels to run down the highway into the car driven by Pagani. His car was practically demolished. He was taken to the hospital in an ambulance, where it was stated today his condition is fairly good.

Says Mississippi House Members Are Denied Patronage

WASHINGTON, May 12.—(INS)—Rep. Williams (D) Miss., declared today that President Truman has deprived all members of the house Mississippi delegation of political patronage.

Williams said no postmaster appointments made by Mississippi members have been approved by the White House this year. He added that the same is true of their selections for rural mail carriers.

The congressman estimated there were 20 to 25 postmaster vacancies in his district. He revealed also that he has not been asked to submit nominations for decennial census supervisors.

President Is Insistent On Adding Taxes

WASHINGTON, May 12.—(INS)—President Truman today stood staunchly by his insistence that four billion dollars in new taxes is necessary to keep the nation's economy on firm ground.

Mr. Truman told his weekly news conference that the nation should retire annually two to five billion dollars of its 251 billion dollar national debt.

For Rigid Economy

The president said that he is for rigid economy in government. He said his budget which he sent to the Congress last January was based on the precept of rigid economy.

He added that he had no intention whatsoever of retreating from his request for four billion dollars in new taxes to keep the government running on a pay-as-you-go basis, and to make possible annual retirement of some portion of the national debt.

The president bluntly stated that, in the condition of the country's present high economy and prosperity, there should be no annual deficits.

He asserted flatly that he does not believe that a deficit can be avoided this year without new taxes.

Check Report

Eisler Escaped As Stowaway

WASHINGTON, May 12.—(INS)—America's FBI and Britain's Scotland Yard are checking reports today that Gerhardt Eisler escaped from the United States by stowing away aboard a Europe-bound ship.

The two greatest detective agencies in the world are checking reports that the so-called No. 1 U. S. Communist agent has been located aboard the S.S. Batory, two days out of Southampton, England.

Eisler is under a total of \$23,500 in bonds posted for his appeal from a contempt of Congress conviction and a New York deportation order.

The Justice department said that a stowaway believed to be Eisler was located aboard the Batory and that it requested Scotland Yard to hold the man pending further advice from Washington.

KASHAN DEFENDERS REPORTED ROUTED

SHANGHAI, May 12.—(INS)—(Censored)—The Shanghai garrison today rushed its crack troops to Sungkiang, 20 miles to the southwest, for a "last-ditch stand" on the outer defenses of Shanghai.

Communist forces were reported streaming toward the city through a wide breach in the 90-mile outer defense line at Kashan, 42 miles southwest of the port.

Observers said that should the Communists take Sungkiang they could quickly fan out along several modern roads and lay siege to the city itself.

Flag Of Israel Raised At U. N.

FLUSHING MEADOWS, N. Y., May 12.—(INS)—The flag of Israel was raised ceremoniously outside the Flushing Meadows auditorium at 10:30 a.m. (EDT) today in official inclusion of the Zion state as 59th member of the United Nations.

The General Assembly opened its ranks to the Security Council's approved applicant at 7:25 p.m. last night by an ample two-thirds majority vote of 37 to 12. There were nine abstentions.

The six Arab states walked out of the auditorium in a protest demonstration as President Herbert V. Ewart announced the entry of Israel and invited Foreign Minister Moshe Sharett to the rostrum.

Went Over Fence After Softball, Didn't Come Back

PLYMOUTH, Mass., May 12.—(INS)—Four men who ran after a ball hit over the fence in a Plymouth softball game were objects today of an embarrassed police hunt.

The quartet made their dash for the ball from the sports field of the Plymouth House of Correction yesterday.

According to red-faced house of correction officials, what happened was this:

Some prison athlete—his identity was lost in the ensuing confusion—wallowed a pitch over the center field fence.

A trustee was designated to get the ball. The gate was opened for him and . . . well, he had unexpected company going through.

Strange Method Of Suicide Taken By Boston Man

BOLTON, Mass., May 12.—(INS)—Eastern society circles were shocked today by the strange death of Prescott Slade, 31-year-old scion of a prominent American family, whose body was found half-covered by a potato barrel in his garage.

A note left by Slade declared this is "the best way out".

Slade, who was born in Paris, educated in the best schools on two continents and whose name was linked romantically with some of the better known beauties of this generation, was found by a neighbor, Bradford Erwood.

Authorities said Slade carried the wooden potato barrel into the garage, pushed the open end over the exhaust pipe of his automobile, started the motor and then crawled into the barrel.

By JOHN A. REICHMANN (U. S. Staff Correspondent)

WASHINGTON, May 12.—Two key American officials leave today for Paris to confer with the western diplomats on strategy for the May 23 Big Four Council of foreign ministers.

Ambassador at Large Philip C. Jessup and State Department Counselor Charles E. Bohlen formed the advance guard of the United States delegation. Secretary of State Acheson goes to Paris by plane May 20.

Foreign ministers of the United States, Britain and France are reported planning an approach to the crucial May 23 meeting with Russia on a "feeling out" basis.

Plans To Be Developed

Plans still to be developed will send them to Paris with a well-agreed on agenda. But their approach will be primarily exploratory.

On this basis, it is hoped to determine within no more than three weeks whether Moscow really intends to settle the German situation or is using the Council of Foreign Ministers for propaganda or delaying purposes.

The plan for a three-week trying-out period was broached by the British. The French, ostensibly have shied away from any open

Minor Disputes Develop During Blockade Lifting

Lifting Of Barriers For Most Part Goes Off Smoothly It Is Reported

ALLIES PROTEST ON ORDERS ON TRAINS

(BULLETIN)

BERLIN, May 12.—(INS)—Normal passenger and freight traffic streamed into and out of a happy, blockade-free Berlin by road and rail today.

But a shadow was cast on celebrations that followed lifting of the long and costly blockade by complaints of passengers aboard the first inter-zonal train to reach Berlin that they had been "roughly handled" by Soviet frontier guards at the Marienborn check-point.

By KINGSBURY SMITH (European General Manager International News Service)

BERLIN, May 12.—Berliners, freed today of the 10-month Russian blockade, loosened belts for an influx of food, but kept wary eyes on new, though minor, storm clouds through which the allied airlift continued to fly.

Trains, trucks, autos, bicycles and hikers streamed between the former German capital and the West. In Berlin itself, jubilant Germans hailed the arrival of food, fuel, and power.

But the bright dawn that broke in a glare of photographers' flashbulbs magnesium flares and klieg lights at the 327-day old barriers were lifted promptly at 12:01 a.m. this morning (6:01 p.m. Wednesday, EDT) was already menaced by new quarrels.

Protests Are Made

Over American and British protests, the Soviets forced Allied trains moving to Berlin to change to Soviet locomotives and crews at the Helmstedt checkpoint.

The Soviet-licensed news agency ADN announced that "certain restrictions" would be applied to freight traffic to and from Berlin.

The announcement said that all freight moving westward will require the approval of the Soviet military administration or the Soviet-sponsored economic commission.

An American military government spokesman immediately declared that the West will reject such tactics. He pointed out that the beginning of the blockade was marked by similar Soviet moves.

German trucks attempting to carry charity food parcels to Berlin were turned back at the British zone border by Soviet guards who declared only commercial shipments could pass through the checkpoints.

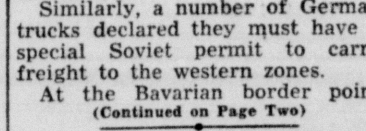

Similarly, a number of German trucks declared they must have a special Soviet permit to carry freight to the western zones.

These are the days of the going dub, these are the days of grace, for the lad who hikes to the rural spots out to the open space. Where he puts a ball on a little tee and swats with vigor and vim, and what of the cellar that should be cleaned, ah no that is not for him. He hasn't time for such mundane things the outdoors is calling and so, he makes for the place that was closed to him when the fields were covered with snow. But these are the days for the golfing dub as he swings like a rusty gate and slices and hooks with the greatest of ease, the weather is seventy-eight.

Just in case it has slipped your mind or you didn't happen to notice the calendar, tomorrow is Friday the Thirteenth.

CO-WORKERS HONOR ANNELLA FLECHER

Co-workers of the register and recorder's office honored Miss Annela Flecher on Wednesday evening, bride-elect of this month, at a lovely dinner-shower party. At 6 o'clock the group gathered at an inn near New Wilmington. Pictures were taken of the group in the garden, and afterwards dinner was served.

Lovely fresh cut flowers centered the table, and these were later presented to the honored guest. Miniature white crocheted baskets filled with tiny rosebuds marked each place, and 11 were present.

Miss Flecher, an employee at the court house for the past 11 years, was presented with a gift from Orville Potter, in behalf of the office force.

Later the group motored to the home of Mr. and Mrs. Orville Potter, 1401 Highland avenue, and here a miscellaneous shower party feted Miss Flecher.

Former office associates attended, and games and other pastimes were enjoyed. At the close of the program, dainty refreshments were served to guests, numbering 16. Tiny bridesmaid dolls were used as individual favors.

The honoree was showered with an array of lovely and useful gifts to use in her new home.

Miss Flecher, daughter of Mr. and Mrs. Anthony Flecher of R. D. 1, Wampum, will leave the register and recorder's office this coming Saturday, in preparation for her marriage to Merle H. Hildebrand, son of Mr. and Mrs. R. Lawrence Hildebrand, 1101 Delaware avenue, which will take place on Saturday, May 21.

Walking Man To Take 62-Mile Walk On 62nd Birthday

Will Walk From Atlantic City
Hotel To Philadelphia Elks
Club By Way Of Pike

LEETSDALE, Pa., May 12.—(INS)—A. F. Bergman, the original "Walking Man," who already has hiked it some 260,000 miles, can think of no better way to celebrate his 62nd birthday Saturday than by taking a 62-mile stroll.

Bergman, who makes his home in Leetsdale when he's not gallivanting around the country, will walk from the Hotel Holmshurst in Atlantic City to the Philadelphia Elks club, via the White Horse Pike.

Each year on his birthday, Bergman adds one mile to his jaunt. But Saturday's hike will be only a breather in preparation for his 375-mile trip by shank's mare from Pittsburgh to Atlantic City—a trip he expects to make in August.

Bergman walked 500 miles from Pittsburgh to Chicago in 1945 in six days and 23 hours. His best Pittsburgh-to-New York time was six days and five hours for the 400-mile hike.

PREPARING FOR LAST DITCH STAND BEFORE SHANGHAI

admitted that the Communist forces overwhelmed stubborn Nationalist defenders at Kashiwan, who staled the headlong drive of the Communists for several days.

The Communists claimed that Nationalist planes strafed Kashiwan's suburbs and the Kashiwan-Suichow railway killing 2,000 Communists.

The garrison communiqué said that government forces are preparing to make a stand at Sunkiang, 20 miles southwest of Shanghai with Communist troops only six miles away.

In Shanghai itself, the garrison headquarters reportedly instructed all Nationalist government organizations to evacuate the city within two weeks.

MINOR DISPUTES DEVELOP DURING BLOCKADE LIFTING

(Continued from Page One)

near Hof, Soviet guards declined to open the border on schedule, and said that only at 1:15 or eight in the morning would any crossings be permitted. Long columns of automobiles anxiously waited on the Soviet side to enter the western zones.

Went Off Smoothly

But generally, the lifting of the barriers that have cut off Berlin by land went off smoothly. The Russians waived much of their usual red tape and westerners crossed the long-closed autobahn without difficulty.

At 5:10 a. m. the first train from the west rumbled into the city, it's shrill whistle proclaiming the West's victory over the futile Soviet siege. The train, from the British zone, carried mainly correspondents and military government officials. It arrived in Berlin one hour and 20 minutes early, because an anticipated lengthy stopover at the Marienborn Soviet checkpoint failed to develop when Soviet guards waved the train on through.

Lt. Paul Sims, of Mariana, Fla., a passenger on the train, remarked: "there were no incidents. Everything went well."

An American zone train was due to arrive in the city at 9 a. m. Thousands of cheering Germans greeted the end of the blockade, offering flowers, wine, and schnapps to the first drivers who wheeled down the autobahn in a mad race to Berlin.

Carnival Air

The city wore a carnival air. Children were let out of school, many shops were closed, and beautiful faces were everywhere. The barriers between east and west sectors were down and traffic moved freely.

On the autobahn U. S. and British teams left Berlin and Helmstedt at dawn to place markers designating the Allied corridors. Good will prevailed as the soldiers and officers chatted and smiled with Soviet guards. The westerners remarked that the Soviet troops at both ends of the autobahn were "almost unbelievably cordial."

General Lucius D. Clay, in an exclusive statement to International News Service, hailed the end of the blockade as "a great victory for peace." But he warned that the Westerners must display the same determination to support the cause of peace everywhere that they displayed in maintaining the airlift.

Clay said that the most important feature of the blockade and the airlift was that it taught Germans that "the cause of freedom is supported by all who love freedom."

The end of the blockade brought western sector Berliners light and power cut off by Soviet sector power plants. Houses blazed with the unwonted illumination long past midnight, and there was hope that industrial plants which have been operating only a few days a week because of the power shortage would soon resume full-scale operations, ending much unemployment.

Expressions of support and offers to assist in the employee solicitation campaign came from all those present.

publican to the bipartisan Federal Trade Commission. He was named as an independent and not as a Republican, and there are indications that President Truman intends to find such independents for all vacancies that, under the law, must be filled by appointees who are not Democrats.

The tipoff to the opposition came in a revealing remark in a release from the National Association of Manufacturers: "He (Carson) is energetic and would be expected to become very active as a member of the Federal Trade Commission in pushing investigations into business affairs. It just so happens that one of the chief functions of FTC is to protect the consumer from monopolies and unfair trade practices."

Jesus Teaches Of The Judgment URGES DISCIPLE TO WATCH, PRAY AND HOPE

Scripture—Mark 13: 14:3-9

Unfinished watchtower in a vineyard.

"Let all that ye do be done in love."—1 Cor. 16:14.

By NEWMAN CAMPBELL

To many people this atomic age in which we live is a threat to the civilization of the world. If these fantastic inventions could be used only for the benefit of mankind, they will do untold good. If further development is for organs of destruction, the world as we know it will vanish.

Jesus saw clearly the way His nation was going. Civil leaders were selfish, wicked men, subservient to their Roman masters. The rulers of the temple seemed only concerned with the formal observance of ceremonies.

They were indifferent to the temple's moral and spiritual aspects. Both groups cared more for their own aggrandizement and the security of their positions than they did for the people's welfare. "Watch and pray," Jesus told His followers in the last of His days on earth. At the same time He gave them hope for the future, and faith.

Jesus came out of the temple

on Tuesday of Passion week, and one of His disciples said to Him, "Master, see what manner of stones and what buildings are here?"

Did this constant companion of the Lord realize how close they were to tragedy, or was he trying to divert his mind from what was so near?

At any rate, Jesus ignored the question, but, instead, said: "Seest thou these great buildings? There shall not be left one stone upon another, that shall not be thrown down."

This sad prophecy was fulfilled in 40 years, when the Roman general Titus destroyed Jerusalem.

The Master's answer stimulated His companions' curiosity, and they asked, "When shall these things be?"

Jesus cautioned them first against deceivers who would claim to be the Messiah—a warning which in this day is still pertinent. Would-be leaders are constantly arising, none so irrational in their teachings that they cannot find some to follow.

"And when ye shall hear of wars and rumors of wars, be ye not troubled: for such things must be; but the end shall not be yet."

Nation shall rise against nation, He told them, and there shall be earthquakes and famines, and persecutions for His sake. And the gospel must first be published among all nations.

When they were hailed before magistrates for His sake, Jesus told them, they should take no thought for the answers they would give, "for it is not ye that speak, but the Holy Ghost."

After this "time of tribulation" the true Christ—Himself—would come, "and then shall they see the Son of Man coming in the clouds with great power and glory."

"When would this be?" Now learn a parable of the fig tree; When her branch is yet tender, and putteth forth leaves, ye know that summer is near:

"Verily I say unto you, that this generation shall not pass, till all these things be done . . . but of that day, and that hour knoweth no man, not the angels in heaven, neither the Son, but the Father."

Then Jesus warned them to "Watch and pray; for ye know not when the time is. For the Son of Man is as a man taking a far journey, who left his house and gave authority to his servants, and to every man his work, and commanded the porter to watch."

Keep alert, He told them, "lest coming suddenly He find you sleeping. And what I say unto you, I say unto all, Watch."

We too should keep alert, watch and pray that the great powers now in our hands are used only for the good of all and not for evil purposes. We must back up our leaders and do what we can to help them to the wise—with the peace of the whole world at stake.

Now we come to the last act of love and loyalty toward the Lord before He was betrayed and led to a cruel death.

It was the day of the Passover. He was seated at the feast in the home of Simon the Leper—of whom we know nothing. A woman entered bearing in her hands an alabaster box of precious ointment, and she broke the box and poured the contents on the Lord's head.

Some were filled with indignation for this "waste" of such precious stuff. It should have been sold and the money given to the poor, they said.

However, Jesus told them to leave her alone. "The poor ye have always with you," He said. "Me ye have not always."

She hath done what she could: she is come beforehand to anoint my body to the burying."

Scranton Transit Strike Is Ended

SCRANTON, Pa., May 12.—(INS)—A 39-day transit strike ended in Scranton today.

Any child beyond the age of five or six, who really radiates and practices true democracy in his family does some things practically every day, which he would rather not do but does from a sense of duty because he is a member of this

In View Of News Of The World

By J. C. OESTREICHER, INS Foreign Director

A ticklish propaganda situation promises to develop with lifting of the Berlin blockade and it is a foregone conclusion that the Russians will make the most of it for their own ends.

It is evident from news dispatches that residents of western Berlin planned a spree of grandest dimensions along their own local river of that same name.

Obviously, the mere fact that Western Berliners are alive and well enough to celebrate is a tribute to the Allied airlift.

But there is every possibility the Russians will attempt to put across an interpretation diametrically the opposite.

They may say to the Berliners: "See what we have done for you. See how dependent you are upon the Russians and what cooperation with us really means."

And they can attempt to build up the spurious case by allowing train after train to pass unimpeded through check-points, laden with potatoes, eggs, flour, sugar and all the other produce that was not too plentiful during the airlift.

Has Difficult Points
The situation has its difficult points. Obviously the Western Allies will want to ship into Berlin everything that they can for the Berliners have had a hard time of it.

They plan even to continue the airlift indefinitely, which will mean that the rail and truck haulage of goods will be augmented from the air.

And by means of clever propaganda, the Soviets may convince at least some of the Germans that every time a ration is increased or some item removed from the prohibited list, they are the ones who are deserving of thanks.

This, of course, is the risk that the Western Allies must take. They do not expect that all Germans will view the situation realistically and with the cold logic required to offset fictitious propaganda.

As a matter of fact, U.S. authorities believe that western popularity was established on the first day that the airlift became really effective and that mere propaganda cannot destroy it.

As a matter of fact, Brig. Gen. Frank L. Howley, the outspoken U. S. military commandant of Berlin, said that when the blockade was lifted it may be regarded as the "zero hour" for Communism in Europe.

His views seem to be shared by other American and British military officials.

There apparently had been no concerted attempt to show the Berliners that when the first train noses its way into the Anhalter or Potsdamer station in Berlin, it arrives as a symbol of American courage and ingenuity in the face

of calculated Soviet campaign of brutality.

From the American point of view the essential thing was to get things rolling again so that occupational army tasks can be eased off, airlift expenses reduced, and the groundwork laid for the forthcoming Big Four meeting in Paris on May 23 in which so much is at stake.

It never has been American occupational procedure to gloat, boast, or to falsify the facts for propaganda. So much cannot be said for the Russians. They have an undoubted knack for disguising the truth for their own advantage, and the present state of affairs seems to provide a golden opportunity.

If they par it up, they will do much to convince the world of their sincerity.

SHARING HOUSEHOLD CHORES

Some weeks ago I wrote an enthusiastic article about Camp Fire Girls and related some points stressed by the bulletin sent out from the national office of this organization on interpreting and celebrating the slogan for their thirtieth anniversary, "Make Mine Democracy." After reporting the high spots of this bulletin I added: "I was a bit disappointed to find no suggestions for stimulating girls for practicing democracy by sharing in home responsibilities. Indeed, I fear that most such organizations, like most schools, lose a big opportunity to encourage sharing in the normal chores and jobs about the home. I wonder if the average Camp Fire Girl or Girl Scout thinks of such responsibilities as an essential part of democracy."

A Letter
Then came a letter from Mrs. Brunhild P. Roe, corresponding secretary, Camp Fire Leaders' Association of Camden County, New Jersey, thanking me for the good plug I had put in for Camp Fire Girls. Then she expressed disappointment over that one paragraph of mine. Wrote she:

There was no specific mention of that in the material you read about the "Make Mine Democracy" theme it was doubtless because the emphasis in the Camp Fire organization of participation in home activities is so well-known and basic as to be an understood fact. Most of the 746 honors the girls may earn in Home Craft—the first of the seven crafts mentioned in their book, incidentally—stress the doing of something in the home. In one Camp Fire group in our community, the fifteen girls earned 316 honors in six months, with 105 of the honors being in Home Craft.

The Reading-Berks County Council of Camp Fire Girls (Reading, Pa.) has among the seven "Do" projects suggested to carry out the Birthday Honor the following from their handbook:

Sharing Work
"107. Have a family council to discuss household jobs and sharing the work. Make a family work chart and carry it out for at least a week. Have a second meeting and modify your plan on the basis of a week's trial." Others less to the point were also given.

This is splendid and I am glad to pass along the assurances of home and family emphasis by the Camp Fire Girls. But while I regret that the one paragraph of mine I quoted might have left a wrong impression, it referred accurately to the bulletin, which in my judgment did not do justice to democracy in its slogan on democracy. That bulletin gave no strong suggestions that I could find, which emphasize sharing of such common drudgeries as peeling potatoes, making beds, washing dishes and the like as basic in home democracy.

No Real Democracy
I am distressed, indeed, that practically all current discussion of home democracy omits sharing in the common home drudgeries. Without which sharing there can't be real democracy, just for the

'Cold War' At Washington

WASHINGTON, May 12.—The cold war between the president and congress is warming up. It went up at least five degrees with the presidential crack about there being too many Byrds—B-Y-R-D—in congress.

The cause of the growing resentment in the White House is the conviction that the senate is deliberately sabotaging the president's power appointment. Sen. Harry F. Byrd of Virginia voted with the Republicans on the armed services committee to bottle up the appointment of Mon C. Wallgren to be chairman of the National Security Resources Board.

Two other appointments held back by the senate have stirred equally strong feelings. Thomas C. Buchanan was appointed to the Federal Power Commission last July and the senate has thus far done nothing about it. John Carson was nominated a member of the Federal Trade Commission on April 7 and there is no indication that any date is to be set soon for hearings.

Understand Attitude
It seems to me important to understand the White House attitude. These three men, as the president sees it, are liberals who believe in the policies the president ran on in the last campaign.

The president won the election in a victory that bowled over all the so-called experts, and subsequent analysis showed that if more voters had come out to vote the result would have been a Truman landslide. Having lost the election, the opposition now seems to nullify the result by preventing the appointment of men who will work to carry out the Truman policies. At any rate, that is how it looks from 1600 Pennsylvania avenue.

One Man's Opinion

By Walter Kiernan
(By International News Service)

The naming of Archie MacLeish to a Harvard post passed almost unnoticed but it's the first time in 17 years the Cambridge-to-Washington trend was reversed.

There was a period there during the New Deal when the next most pathetic thing to a Republican was a Yale man . . . and the fellow who was both Republican and Yale went to Tahiti to ride out the storm.

A couple of Yale fellows did sneak into the administration by claiming they never had finished grammar school, and the next thing they knew they were on a sealed train bound for Harvard yard.

Those were the days when the commencement speaker always ended with "Best of luck to you and I'll see you in Washington."

And now here's Archie MacLeish buying a ticket for Cambridge and if that isn't significant don't say I wasn't associated with all

How are things at the University of Missouri?

port of this point of view can be made of the Carson nomination. For 25 years in Washington Carson has worked diligently and often effectively for social reform of a liberal-progressive nature.

He was assistant to the late Sen. James Couzens, the Michigan motor millionaire who had surprisingly liberal convictions in view of his great wealth. On Couzens' death, Carson turned to various public causes that he considered good and desirable. He concentrated especially on the co-operative movement, feeling that it offered an opportunity for the people to control democratically the means of production and thus escape the grip of big business and big government.

Work Praised
In 1937 he was appointed to the office of consumers' counsel of the National Bituminous Coal Commission. His work as defender of the consumer has been highly praised in a private study of the commission, as yet unpublished.

Immediately upon Carson's nomination a smear campaign was directed against him. His public statements were combed over and over and remarks taken out of context to show that he held radical views and would be a threat to business on the trade commission.

What was not brought out was the fact that Carson is a faithful Roman Catholic. As the record shows, Carson has based his economic views largely on the encyclical of Pope Pius XI, called "Quadragesimo Anno," and on the interpretations of that encyclical by Rev. Wilfrid Parsons, S. J., professor of sociology and politics at Catholic University.

In housing, in rural electrification and in other fields where government assistance is approved, Carson has repeatedly urged the co-operative solution. He has frankly expressed the view that co-operatives are the alternative to some form of stateism—communism or fascism.

Viewpoint Coincides
Carson's criticism of capitalism for its failures and limitations coincides with a viewpoint that goes very high in the Catholic hierarchy. Over the past week end the official Vatican organ, L'Osservatore Romano, denounced capitalism as a cancerous growth at the same time that the present Pope was telling European employers that they would have to share responsibility for the direction of industry with their employees.

In the attack on Carson it was said the he was named as a Republican. (Continued on Next Page)

JOBS UPON A TIME

BORN AT DECAZEVILLE, Aveyron, France, circa 1858, Emma Calve, operatic singer, was trained in Paris. She made her first important appearance in opera at Brussels, Belgium, in 1882. For some years she sang principally in Paris, but when she went to London in 1892, she won fame and popularity, more especially for her brilliant singing and acting in the role of Carmen. Her name will always be associated with this role by those who were fortunate enough to hear her. She was also a great favorite at the Metropolitan and Manhattan opera houses in New York City. Her death was announced at Vichy, France, in 1942.

HORATIO, LORD NELSON, English admiral, was born at Burnham Thorpe in Norfolk, England, in 1758. He joined the British navy in 1770, and in 1793 was given command of the Agamemnon, serving in the Mediterranean. He lost the sight of his right eye during the conquest of Corsica. In 1797 he played a decisive part in the first defeat of the combined French and Spanish fleets off Cape St. Vincent, for which he was knighted, but later lost his right arm in an unsuccessful brush with a richly laden Spanish ship. In 1803, May 18, as commander-in-chief of the Mediterranean fleet, he raised his flag upon the Victory, and two years later, before the Battle of Trafalgar Bay, when Napoleon Bonaparte was attempting to invade England, he gave his famous signal, "England expects every man to do his duty." The victory was complete, but he was mortally wounded and is buried in St. Paul's Cathedral, London. His romance with the beautiful Lady Hamilton should help you to identify him.

Why All The Furore?

(By HENRY McLEMORE)

Just why the English Royal Family should get so dadblamed burned up over an Italian photographer taking a picture of Princess Margaret Rose in a bathing suit is beyond me.

For years and years they have been allowing photographers to take pictures of Queen Mary in those hats she wears, without raising a finger to stop them.

Now don't try to tell me that Princess Margaret doesn't look better in a bathing suit than her grandmother does in those four-story turbans she has been inflicting on herself and the public for half a century or more.

What Should She Wear

What in the world is Princess Margaret supposed to wear when swimming if it isn't a bathing suit? I could understand the Buckingham bluebloods getting upset if the photographer had snapped a picture of the Princess swimming while wearing an evening dress, or a raccoon coat, or an ermine cloak and her father's crown. But why all the excitement over a picture of her in swimming in a costume expressly designed for such a purpose?

They might just as well stamp their royal feet and narrow their royal eyes at any photographer who took a picture of the Princess darning to wear a riding habit while riding a horse, or wearing a raincoat when walking in the rain.

Recalls Mrs. Truman's Stand

There is the chance, of course, that Mrs. Harry Truman inspired the Royal Family to take the bathing suit stand it did. You will remember that when the President was last at Key West on vacation photographers were forbidden to snap him while in swimming, and he explained the ban by saying that Mrs. Truman had told him never to pose in a bathing suit. I can understand Mrs. Truman's attitude, because my wife is of the same mind. She says I am far more attractive in a suit of armor or a diving bell.

Why, I don't know, unless it is because my knees have an affinity for one another, and stay as close together as possible, while my ankles are dread enemies and get as far from one another as they can.

Reminds Me

Speaking of Margaret Rose reminds me of roses, and roses remind me of Spring, and Spring reminds me of something of which I have written about a thousand times—women's clothes.

Why is it that women have to have a change of clothes for each season of the year? Honest, you'd think they were trees, and that the laws of Nature demanded that they have a switch of foliage. Come to think of it, most women do have something in common with trees—they have a sap (or saps) working for them.

Spring being here, women have to have Spring clothes. Why? Why (to use two "whys" in a row) couldn't women just take off the coat they wore during the winter to keep warm and use the same dress for spring? Men do that. The same old suit that worked for winter, works for Spring. All that is needed for a man to make the haberdashery switch from snow to robins is to shed the overcoat and the vest.

Must Have Summer Clothes

As soon as spring has sprung, women have to have summer clothes. Why? (One more "why" and the record for the use of the word will be mine.) Spring is much like summer, so is there any reason for women having to have a new wardrobe for that season of the year?

Men don't. The suit that did faithful service in winter, carried on through Spring, continues to do yeoman work in summer.

I won't name all the seasonal changes of women's clothes, but they have to have outfits for Indian summer, early fall, late fall, and—before you know it—a new winter set of garments.

I maintain that if the women of this country didn't require so many changes of clothes the U. S. never would have to worry about going bankrupt. Men would have enough money to triple the Marshall Plan outlay with a smile.

But I must admit—which kills my entire argument—that I wouldn't have American women change one whit. They're terrible, but they're magnificent.

REWARDS FOR THE MANY
Fortune has money to offer and fame has rewards of a kind. But few win the favors of fortune, and fame to the many is blind. Yet life can be good without either, and laughter and love can be won.

And the many can sit down contented as soon as the day's work is done.
'Twere a sad world, indeed, if the many the splendors of life were denied;
The friendships that gladden the journey, the home with the garden outside;
The thrill and the rapture and promise the children are sent here to bring;
The streams and the lakes for the dreamers; the song of the birds in the spring.

Leave fortune and fame to the gifted. There's much for the humbler career.
There are triumphs exalting the spirit when faith at its bravest appears.

There are numberless pleasures to choose from the many un hindered may claim,
And life can be lived to the fullest, without either fortune or fame.

If you have angina the doctor will probably tell you to stop whisky and tobacco.

If you don't smoke, chew, drink, or eat hay you are a goner.

ANGINA PECTORIS

Butch heard Grand Dad and the doctor talking about Angina Pectoris and he wanted to know who the girl was.

Angina is the name of a very distressing disease. When Butch takes up the study of Latin, he will learn that Angina means strangling and Pectoris means of the breast. Then Angina Pectoris means a severe pain or strangling sensation in the breast.

Men over forty years old are usually the only persons who have it. It is a rare occurrence in women. The doctors have not found out exactly what causes it. It seems to attack brainy fellows mostly.

Butch should not use that as an excuse to stay home from school. The pain usually comes on rather suddenly and does not last very long but is bad.

If you have angina the doctor will probably tell you to stop whisky and tobacco.

If you don't smoke, chew, drink, or eat hay you are a goner.

First Methodists
To Dedicate Altars

First Methodist church will have a special service of dedication this coming Sunday morning at 11 o'clock. Three new and beautiful altars will be dedicated; a white altar for the beginners' department, a natural wood altar for the primary department, and a mahogany one for the junior department.

These beautiful altars have been presented to the church by the board of education of the church. The cross and candlesticks for the junior altar are a gift of J. Carl Miner, and are presented in memory of his wife, who for many years was in charge of the work in this department. Appropriate dedicatory services will be conducted by the pastor, Rev. J. A. Gaier, assisted by students from the various departments of the church school.

Minneapolis outfielder Charlie Workman shakes his head and wonders just what you have to do to set a record in the American Association. Workman belted consecutive home runs in three consecutive innings recently during the Miller's 18-9 victory over Louisville, a game which did establish one association record in hit.

In his first 21 games, Luke Luscious Easter smashed seven homers, batted in 30 runs and totaled 31 hits for a .431 average. Easter played in New Castle three times last year with the Homestead Grays. He is with San Diego now.

Possible Polio Vaccination Seen In New Approach

Evidence Indicates Germ Is In
Digestive Organs As Well As
In Nervous Tissue

BOSTON, May 12.—(INS)—Possible development of a vaccination against infantile paralysis was seen Tuesday as a result of discovery at Children's hospital of a "new approach" to the problem.

Dr. John F. Enders, a speaker at the 80th anniversary reunion of the Children's Medical Center said evidence has been uncovered to indicate that at least one form of the polio germ is developed in digestive organs. Previous research was based on the theory the germ grew only in nervous tissue.

He said:

"This is believed to be the first time that this virus has been cultivated successfully in any but brain or spinal cord tissue, and is the first direct indication that the virus may multiply in various body tissues, although the basic damage is to the nervous tissues."

Dr. Enders said it may now be possible to look ahead into the future when vaccination "may well be the preventive measure to polio." He pointed out that while it would be difficult to make the entire nervous system immune through vaccination, "it might be easy to immunize the gastro-intestinal tract."

He said it was too soon to draw too many conclusions from the discovery, but added that "it does appear that we may now have a new approach to the dreaded polio."

Local Persons Hurt In Turnpike Auto Accident

According to word received here four local people were injured in an auto accident on the Pennsylvania turnpike, just outside of Carlisle, Pa., last Friday, while en route to a wedding in Philadelphia.

They are: Stanley Dyll and wife, Mrs. Elia Phillips Dyll, of East Washington street, this city; her father, Anthony Phillips, and sister, Thelma Phillips, of West State street.

The report stated that Mrs. Dyll was driving while the occupants of the car were asleep. A trailer-truck just in front of them made a turn at one of the turn-off stations so abruptly without signaling that the crash resulted.

Stanley Dyll, suffered a nose fracture, and left arm fracture and injury to his ankle.

Thelma Phillips suffered cuts about the face. Both are confined in the Carlisle, Pa., hospital.

Mrs. Dyll and her father, Anthony Phillips, were treated and X-ray pictures taken, and later discussed.

At present Mrs. Dyll is at the Molly Pitcher hotel in Carlisle, Pa., and Mr. Phillips has returned home.

The local people's car was practically demolished.

Kiwanians Enjoy Musical Program

Local Artists Entertain Members
At Luncheon Meeting
Wednesday

Due to the illness of Miss Helen Leslie, music director at senior high school, the a cappella choir of the senior high school was unable to fill its engagement with the New Castle Kiwanis club Wednesday.

However, the club enjoyed a splendid musical program, which was presented by Kiwanians George Peacock and Ernel E. Branstetter, assisted by Anthony Casbero, violinist.

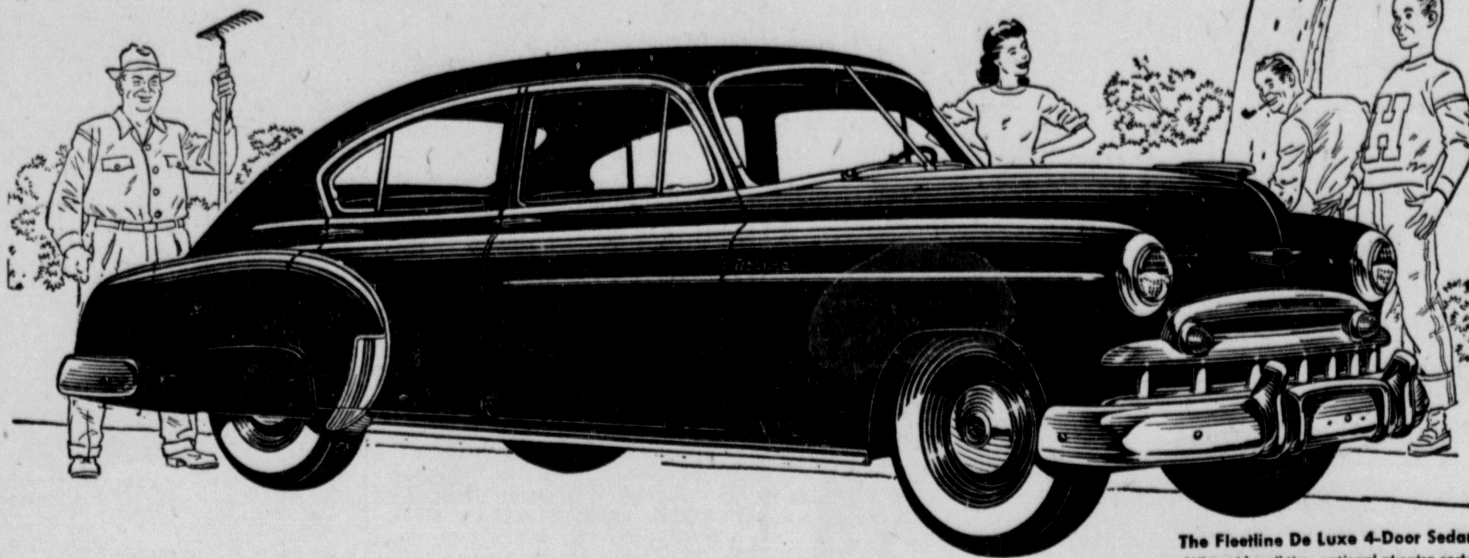

Mr. Peacock gave two groups of tenor solos, accompanied by Mr. Branstetter and Mr. Casbero, and Mr. Casbero gave several groups of violin numbers, accompanied by Mr. Branstetter.

The program made a big hit with the members and was much enjoyed.

Next Wednesday evening, Kiwanis will be host to their rural friends at an evening meeting at the M. Dale Andrews offices at Mt. Jackson, while Miles Horst, state secretary of agriculture will address the group.

An important corporation lawyer told a reporter from the Wall Street Journal that the best advice he ever got was tendered by the doorkeeper at the United States Supreme Court. The lawyer had

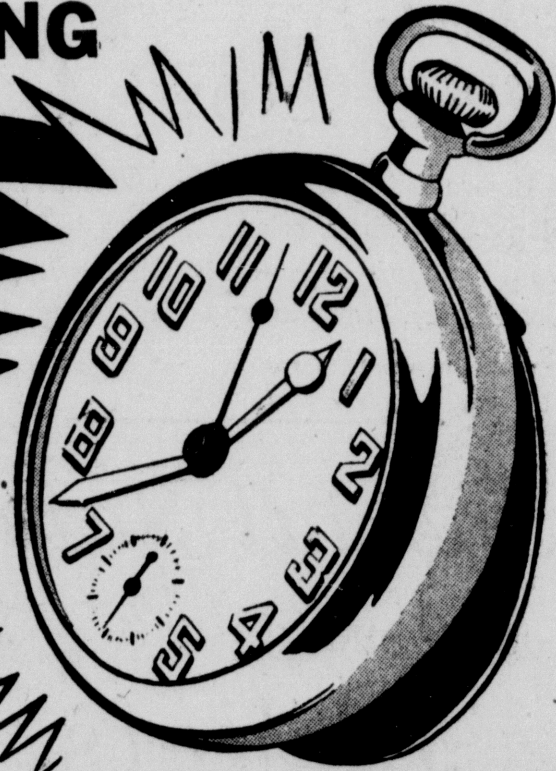

just been handled in rather summary fashion by that august body, and expressed himself in no uncertain terms as he stamped out. "You better be keeful 'round heah," warned the doorkeeper. "Remember dis am de Supreme Cote ob de whole country an' ef you gits contempt of cote here dere ain't nobody to appeal to but God-a-mighty."

Shortly after her honeymoon, the comely receptionist, Betsy Duffy, brought a strange-looking concoction in from the kitchen and promptly plunked it down in front of her husband. He dutifully ate a few spoonful, gulped, and ventured, "What do you call this, darling?" "It's date pudding," beamed Betsy. "How interesting," he answered. "But tell me, what date?"

The Battle of Gloatta, one of the important battles of the American Civil war, result of which was indecisive at first, ended in the route of Confederate forces. This struggle ended the only serious attempt by the Confederates to invade the far west. The fighting took place at Apache Canon, near Santa Fe, N. M., and is called Apache Canon battle in northern reports.

THE FAMILY SCRAPBOOK

By DR. ERNEST G. OSBORNE

Helping a Child Understand Death.

Death is naturally something that most of us don't like to face. We feel that we should protect our children from what we fear will be deep disturbance should they come into contact with it. Inevitably, though, even young children will hear about someone they know having died or will see a dead animal.

Sidestepping the child's questions will lead only to confusion that is likely to be more disturbing than the facts themselves. Naturally, in the early years, we can give only a very simple and partial explanation. If a pet dies the youngsters should be given a chance to discuss what may have been the causes of death, permitted to handle the body and perhaps take the responsibility for getting it buried.

A matter-of-fact attitude toward such a question as, "Will you die, mummy?" will avoid emotional upset. To answer, "All people die sometime but mother and father won't die until long after you're grown up," is much more comforting than, "Let's don't talk about such things."

The latter kind of answer leaves the child's interest unsatisfied and is very likely to make him think that there is something to be hidden. As with other "facts of life" the clear-cut, honest and uninvolved answer is most satisfying.

Clearing House Purpose Of GNCA

Association Is Supplemental One That Clears Civic Projects For People

Where does the Greater New Castle Association get its authority to serve as a community clearing house? The question has been asked. It can be answered.

The GNCA is not a constituted authority and has no administrative function in the community. It exists because the citizens say it should, because it is a central clearing house for all manner of civic ventures.

A day's calendar in the GNCA runs the gamut of minor questions to major. A letter asks for somebody's name, the record of a family or the population of the city.

There is a possibility of getting an industry located in the city, or there is information received important to local industry. A campaign is projected which has for its goal the improvement of some condition.

Music Club Chorus Concert Is Tonight

Mrs. Dorothy Gormley Smith, president of the Music club, will give the announcements and ushering will be the Misses, Evelyn Bernine, Elizabeth Emery, Margaret Graham, Emma Patton and Barbara Schulz and the Mesdames, Glean McCracken, J. E. Ginsberg, William Y. Gibson, John F. Love, Jay L. Reed and Paul Welsh.

In charge of decorations are the Mesdames G. C. Horchler, W. E. Horner, Jean Forrester, Jacob Jordan and Maude Forrester. Miss Charlotte Taylor is in charge of the seating arrangement.

to you about
CHLOROMYCETIN

An outstanding achievement in the history of medical science is the discovery of Chloromycetin, a mold extract of the same general nature as Penicillin and Streptomycin.

First obtained from a soil organism collected in a ploughed field near Caracas, Venezuela, it appears to be quite effective against one major family of germs—the Rickettsia.

Hitherto immune to any drug, the Rickettsia are responsible for some of the most deadly human diseases, notably typhus fever. Smaller than bacteria and transmitted by lice and ticks, these germs live inside cells. Penicillin, Streptomycin and sulfa drugs have no effect because the Rickettsia are not sensitive to these drugs.

However, extensive tests have indicated that Chloromycetin, if given early and in large enough doses, will cure typhus which up to now has been one of the greatest killers of mankind.

Always see your physician. If you require Chloromycetin, he will give you the proper prescription.

Turnpike Plan Gets Approval

High Speed Feeder Line To Erie From Near New Castle Proposed

HARRISBURG, May 12.—(INS)—Approval of two measures authorizing construction of high speed feeder lines connecting Erie and Scranton with the Pennsylvania turnpike was announced today by Gov. James H. Duff.

The measures passed by the General Assembly call for construction of toll roads from New Castle to the lake port and from near Harrisburg to the center of the anthracite region.

The governor said a new era in tourist and truck travel undoubtedly would follow completion of the overall turnpike program.

Turnpike engineers estimate the cost of the Scranton extension at \$110,000,000 and the Erie spur at \$50,000,000.

The Erie route would connect with the projected westward extension of the turnpike from Irwin to the Pennsylvania-Ohio line near New Castle while the Scranton leg would connect the hard coal fields with the Middlesex interchange.

The turnpike commission is pushing the superhighway eastward from Middlesex to the metropolitan Philadelphia area.

Eleven School Teachers Elected

Named For City Schools At Meeting Of School Board Wednesday Night

Eleven teachers were elected Wednesday night by the New Castle School Board at its regular monthly meeting in the East street building.

Of the eleven, five were given temporary contracts and six were given permanent contracts. Eleven other teachers now in service were given permanent contracts.

The teachers elected follow: Permanent contracts — Mabel E. Dickey, R. D. 3, Slippery Rock; Mrs. Violet Berry Hotchkiss, 507 Laurel boulevard; Mrs. Tillie Solomon Lerner, 318 Highland avenue; Mrs. Lida Thompson Richeal, 380 Neshannock avenue; Mrs. Margaret Gardner Tritt, R. D. 6. These are for elementary work. For secondary work, Marie Wheaton, R. D. 2, was elected.

Temporary contracts were given to the following teachers elected: Mrs. Eleanor Danoff Bukowski, R. D. 8; Ann Marie McMillin, Wampum, R. D. 1; Marilyn J. Reeves, 108 East Garfield avenue; Mrs. Agnes Webster Williams, 512

Fairmont avenue; Mrs. Ruth Hogue McCart, 921 Rose avenue. These are all elementary teachers.

Permanent contracts were awarded to the following teachers now in service:

Katherine Axe, Thelma S. Boyd, Mary Galbreath, Eleanor Gardner, Lewis Hamely, Myrna V. Hoon, Orlando Lucidore, Elizabeth Moreland, Dorothy D. Polena, Carolyn Rocks, Carolyn M. Wilson.

Action taken at the meeting a month ago giving teachers elected from other districts full credit for time spent in teaching was rescinded. Instead, the board passed a ruling making the following allowances for experience teachers brought in from other districts.

Two or three years, \$200 allowance; four or five years, \$400 allowance; six, seven to eight years, \$600 allowance; nine or more years, \$800 allowance.

Will Continue Milk Supply At Public Schools

Action Taken By School Board; Others Matters Are Given Attention

Milk for the public schools, which is partially financed by the government, will be continued for 1949-50. This action came at the meeting of the New Castle School Board Wednesday night.

The board also voted to continue the plate lunches for Franklin Junior High school for next term.

Superintendent Frank L. Burton reported that the medical and dental inspections of the students in the public schools has been completed.

Superintendent Burton also re-

ported that the Parent-Teachers' Advisory committee had reported upon surveys made by principals of Highland, McGill, Lincoln and Garfield and Pollock schools. The survey was to find out how many parents are interested in organizing a PTA. The survey reports further action is justified.

Insurance premiums amounting to \$4382.35 were authorized paid. Current bills for goods and services in the amount of \$17,441.83 were ordered paid. Athletic bills in the amount of \$1260.98 were ordered paid.

Service Star Legion Makes Donations

Members of the Service Star Legion No. 176 met in the green room of the Y.W.C.A. Mrs. Della Missy presided.

It was reported that an invita-

tion was received to attend the state convention in Wilkes-Barre on June 9, 10 and 11.

A donation was made to the "Remembrance Grove"; to the Cancer Fund, Red Cross Fund, Infantile Paralysis Fund, also a gift to our adopted "Buddy Boy" at Deshon hospital.

Mrs. Missy, president, received an invitation from the American

Legion, to attend their Mother's Day dinner.

This organization planned for a Mother's Day tureen dinner on May 24, at 6:30, at the Y.W.C.A.

It was reported that an officer, Mrs. Esther Dickerson of Cleveland passed away on May 7. Next meeting May 24, when delegates will be elected to attend state convention.

TRAINS SLOWED

GILMER, Tex. — The Gilmer City Commission passed an ordinance requiring that engineers of the Cotton Belt Railway slow their trains to six miles per hour while inside the city limits. The ordinance carries a maximum penalty of \$100.

School savings banks in the U.S. were established in 1885.

RIGHT PLACE

ROCKFORD, Ill. — Though unwelcome, the fire in George Homan's automobile was at least timely. It broke out just as Homan drove past a fire station. Firemen put out the blaze with hand pumps carried a few steps from the station.

Orientation Seminar At Y.W.C.A. On Tuesday

Twenty three women met Tuesday at 10:30 a.m. for the YWCA Orientation Seminar with a short worship service being led by Mrs. George D. Morris.

The Seminar was held in order to acquaint committee persons with their jobs and also to relate them to the whole YWCA.

After an assembly in which Mrs. James W. Moorehead, president, welcomed the group and Miss Dorothy Stewart explained a committee booklet, the committees met in their various groups. They read excerpts from the constitution describing their committee responsibilities, then discussed current plans and future plans. These, along with the date for a regular meeting were to be handled in writing.

Lunch was at twelve o'clock and at 12:45 o'clock Mrs. Roy A. Long gave a historical resume of the YWCA.

Explains Purposes

Miss Stewart presented information about both the church purpose and the personal purpose of the YWCA. The church purpose adopted by National Convention in 1906 is so called because it is distinctly related to a clause in the constitution saying that only women and girls who are members of Protestant Evangelical churches may have voting power and hold office in the YWCA. The personal purpose, adopted by National Convention in 1932, makes eligible for membership in a YWCA any woman or girl who feels that she can conscientiously subscribe to the purpose. Joining the YWCA depends on what a person of integrity feels within herself rather than depending on a denominational structure. At the present time nine Associations in the United States are on the church purpose while 426 have adopted the personal purpose would indicate a departure from any relation to the church that the YWCA might now have. This is not the case, however. The fact is, that with the adoption of the personal

purpose women from all churches are eligible for YWCA membership while with the church purpose they are not. This is because Protestant Evangelical churches, do not include even all Protestant churches. The discussion on these two purposes emphasizes the inclusiveness which has developed in the thinking of today as compared to the thinking back in 1906.

Discussion Held

Mrs. James W. Moorehead led a very interesting discussion on membership fee-sharing, on participants in program joining the YWCA, on national support, and on elections in the YWCA. Miss Stewart led a short discussion on Public Affairs proposals for the coming triennium. All of these matters came out of National Convention held recently in San Francisco.

Mrs. Moorehead and Mrs. Clark McClelland, Teen-Age Director on the YW Staff, presented a skit, "The Shoestring Express" by Barbara Abel.

Miss Ellapearl Wright, who is in charge at the Elm Street YW until a director is secured there, was registrar and timekeeper for the Seminar while Mrs. Vennor Bright and Miss Barbara Schulz served as hostesses for the luncheon.

Engineering Exam Scheduled May 21

Some student in Lawrence county will matriculate in an engineering college as the result of an examination to be made by Elmer Delancey, vocational guidance instructor of the school system, May 21, it was announced today. The award will be made by the Mahoning and Shenango Valley Engineers Society. The award will be made to the student who passes the test with the highest mark.

Rural Highway Deaths Increase

HARRISBURG, May 12.—(INS)—Sixty-eight persons were killed on Pennsylvania's rural highways in April, an increase of 19 above the same month last year, the State Police reported today.

The first four months of 1949, 241 rural road fatalities were listed, or 12 more than for the same period of 1948, the police report showed.

Music Festival Friday Evening

Scheduled By New Wilmington School; Other News Of Community

(Special To The News) NEW WILMINGTON, May 12.—The Music Festival, the event toward which the entire music program of the local schools is directed each year, is scheduled for Friday evening at the Community House.

In addition to the music groups,

the baton twirlers will stage an exhibition. The program is under the direction of Miss Laila Mack.

Seniors at the high school are working on their Class Night program to be given Friday evening, May 27 at the Community House. Baccalaureate service will be held Sunday evening, May 29, in the U.P. church. Commencement will be either June 1 or June 2. A definite date will be announced within the next several days.

John Rock and Louis Barnhart of Struthers, and Robert Bingham of Pittsburgh, students at Westminster College, gave a demonstra-

tion of the work they put on at district churches as a part of the college caravan program, at Monday night's meeting of the Kiwanis club.

Their purpose was to demonstrate that programs of interest to children and young people may be put on without great expense. The Father-Daughter dinner of the club will be held next Monday evening. Following the dinner, the Ellwood City High school choir will present a program in the Methodist church auditorium. The public is invited to this portion of the program.

Ground has been broken at the west end of Waugh avenue for two

brick houses. They are being erected by Edward Thompson, local business man, and E. C. Schort, head of the education department at Westminster College.

Gwen Sloan, John Mansell, Nancy Sarver and Thomas Sarver represented the Young Peoples Society of the U.P. church at a district meeting at the Sharon U.P. church Monday night.

President Lauds U. S. Leadership In United Nations

WASHINGTON, May 12.—(INS)—President Truman told Congress today that the United Nations "has disappointed us" but the United States "can be proud of what we have done" in world leadership.

In a report to Congress on the UN covering the year 1948, Mr. Truman declared: "The world today is not the world we had hoped for when the San Francisco conference adjourned less than four years ago," the Chief Executive said in a report on the UN for 1948.

The President, in submitting the report to Congress, defended the United States' role in the world organization, whose work in many fields he praised. He also pledged the United States again to work for the objectives of the charter and called on other powers to do likewise.

"The nature of our participation and the many different ways in which it is manifested may come as a surprise to many members," the Chief Executive told Congress. "But it will not be an unpleasant surprise."

"We have taken the leadership in many fields of international relations. We can be proud of what we have done."

"If the United Nations as a security organization has disappointed us . . . and we have had to take supplemental measures to meet actual or potential threats to our security, it is not because the United States has not put forth real efforts to develop the United Nations to its full stature."

Truman To Announce New Secretaries

WASHINGTON, May 12.—(INS)—President Truman said today he expects to announce the names of his new secretaries of the army and navy within a few days.

The president told his news conference that he is not yet ready to make the announcement, but expects to do so within a short time. He did not mention the names of any persons under consideration for the two defense jobs.

Mr. Truman has offered the navy post to Jonathan Daniels, North Carolina publisher, and the army job to Curtis Calder, New York industrialist, but Daniels has turned down the appointment and Calder has indicated a reluctance to accept.

NEW YORK—Known to millions of Russians as Kyra Petrovskaya of the Moscow Theater, Russian war bride, Mrs. Elliot Shirk (above) volunteered to broadcast over the Voice of America to "tell the people of Russia the truth about the United States." "This is a paradise," she added, calling the lack of personal liberty in the USSR the "hardest to take" Voice of America officials are considering the offer.

MAN CUTS FINGER

Warren Bartley, aged 28 years, of R. D. 8, was treated at the Jameson Memorial hospital at 6:40 p. m., Wednesday, for a laceration of the end of the left index finger, received when a pen-knife he was using slipped.

District Scouts Plan For Camporee

Two-Day Program To Be Held At
Boyles Field June 10 And 11;
Council Sees Film

Members of the Kuskuski District, Lawrence County Council of Boy Scouts, met in the council office Tuesday night.

Dale Clobus, chairman of the district camping and activities committee, submitted plans for the forthcoming camporee to be held at Boyles Field, June 10 and 11.

The purpose of the camporee is to give the Boy Scouts an opportunity to put into practice the things which they have studied and learned in regards to camping and camp craft.

John Brinton, chairman of publicity, showed the group moving pictures of the "Civic Day" venture by the scouts during the recent scout week.

Wilson Reports
The condition of all units in the district was presented by A. L. Wilson, district commissioner.

William E. Weitz, scoutmaster of Troop 4, sponsored by the Seventh Ward Civic club, explained the process of the troop advancement plan, with which his troop is now experimenting. Mr. Weitz told the group that the plan "stimulated interest among the boys to advance."

Members present for the meeting were: Dan Carroll, chairman, Elmer Nesbitt, A. L. Wilson, Joseph Elrod, Carl Chandler, Dr. A. G. Reynolds, William De Carlo, Plummer Gibson, Alec Samuels, Dale Clobus, John Brinton, E. D. Hawk, Dr. J. W. Post, and John Lawson, field scout executive.

Burr Is Renamed School Treasurer

Bechtol Re-Elected As Secretary And School Board Business Manager

Howard M. Burr was re-elected treasurer of the New Castle district and of the Athletic Fund of the school system Wednesday night at the regular meeting of the school board at the East street building. His bond as school treasurer was placed at \$75,000 and for the athletic fund at \$10,000.

John B. Bechtol was re-elected as secretary and business manager of the New Castle School Board for a four-year term. Both elections were unanimous, there being no other nominations offered. A rate of eight cents per person was set as compensation for the school enumerators who will start their annual listing of school children in June.

A number of letters were received from teachers of the various school buildings expressing their appreciation of the recent \$180 increase in salary given by the board.

The supply of football tickets which will be needed next fall was ordered from the Weldon-Williams-Lick Company of Fort Smith, Ark., at its bid of \$749.52. This includes eight sets of admission tickets, students' ticket books and the tickets for the annual all-star game.

Secretary John B. Bechtol reported that the total assessment for school purposes, as arrived at by the city assessor was \$50,734,030, an increase of \$1,228,850 over the figure of 1948.

Six of the eight city wards showed an increase of \$2,015,330 while the first and seventh wards showed a decrease of \$786,460.

Add Memberships At YWCA Report

Additional memberships amounting to 121, were turned in yesterday at the final report meeting of the YWCA Spring Ingathering according to announcement made by Mrs. C. M. England, chairman of the membership committee.

This addition brings the total number of members up to 1,716 memberships. Although that is seventy-four less than last year it is thought that the difference will be eliminated, as in former years, when reports continue to come in from workers who are still holding cards.

Washington High Gets Green Pennant

Symbol Of Safety Flies From Flag Pole Of George Washington High School Today

Washington Junior High school received its Green Pennant today. The flag symbolizing safety for the past thirty days is flying beneath the American flag on the school pole, following a presentation service in the school auditorium this morning.

A committee of three representing the Lawrence County

Safety Council appeared at an assembly program when the pennant was given. The committee consisted of Harold Rice of the Pennsylvania State police, George Signer of the New Castle Police department and Bart Richards.

Accepted For School Miss Nannie Mitchell, principal of the school accepted the pennant in behalf of the school and then turned it over to Jack Miller, president of the Student Council. Mr. Miller accepted it upon behalf of the students and then took the pennant out to the flag pole where it was raised.

This was the last of eleven Green pennants to be presented. Elementary schools got theirs last week. This week, Senior High and George Washington got theirs.

J. C. Wachtman of the Greater New Castle association making the presentation. The pennants are a part of Governor Duff's safety program for the state. Locally the Lawrence County committee is headed by David McBride.

YWCA Dress Class To Start On Monday

The new YWCA class in making dress forms has reached its maximum registration and can take no more, Mrs. Arthur B. Foster, chairman of the education committee, stated today.

Mrs. Robert DuPont, a trained and experienced person, will be the instructor. The class will start next Monday evening at 7:30 o'clock and will include twenty-one women. They will work in groups of three, two in each group working on the form of the third. It will be made right on her. After

the first form in a group is completed, the procedure rotates until each of the three has made her dress form. Mrs. DuPont predicts a lot of fun as well as a dress form for each one in the class.

She asks that when coming to class Monday night that each one bring one form kit, tape, measure, pencil and scissors. Mrs. DuPont also advises the women to bring a sponge, saucer, wash cloth, hand towel and to wear a cotton dress.

Court House

Court Upholds License Ruling

Judge Lamoree Upholds Suspension Of Driver's License Of Elmer A. Miller

OTHER EVENTS IN COURT HOUSE

In an opinion handed down Wednesday, Judge John G. Lamoree upholds the suspension of Elmer A. Miller's driver's license.

Mr. Miller appealed the order of the Department of Revenue which revoked his license for three months on a charge of reckless driving.

On November 5, 1948 Mr. Miller passed a state police car on the highway and according to state police testimony forced the state car over onto the side.

He was arrested and pleaded guilty to a charge of reckless driving for which he paid a fine and costs. The department then held a hearing and suspended his license for three months. This suspension he appealed.

Judge Lamoree found no reason to upset the ruling of the department and refused the appeal.

JURY LISTS SLOW

Some time ago Jury Commissioners George J. Forrest and Tad E. Shields sent forms to the county committeemen and women of the Republican and Democratic parties asking for names of prospective jurors.

The response has been light the commissioners say. It is important that the jury wheel be filled and all committeemen and women are asked to get their lists in promptly.

Residents Of State Collect One-Tenth Of Social Security

More Than 220,000 Pennsylvanians Get Over Four Million Dollars Per Month

About ten percent of all social security benefits in the United States are being paid to Pennsylvania residents.

The fact that one out of every ten persons in the nation now receiving a monthly old-age or survivor's payment hail from the Keystone State was made public today by Myron Milbourn, manager of the New Castle office of the Social Security Administration.

Over 220,000 Benefit

More than 220,000 Pennsylvanians are getting four and one-half million dollars a month. They comprise roughly one-tenth of the total of 2,300,000 beneficiaries in the nation to whom 45 million dollars go out each month in the form of Social Security checks.

The doubting-Thomases question still crops up occasionally in the New Castle office. "Is Social Security really paying off?" These recently released figures on benefit payments that are made every month, winter or summer, to retired workers and to the widows and children of workers who have died, ought to be a satisfying answer, according to Mr. Milbourn.

Build Reserve Fund

The money for these social security payments comes from the worker himself and from his employer. One cent of every dollar an employee earns, up to \$3,000 a year, in a job that comes under the Social Security Act, goes into a trust fund, that is used to pay benefits. Every cent that the work-

er puts in is matched by his employer. This builds up a reserve fund to assure the payment of future benefits.

In Pennsylvania, almost 100,000 persons are receiving retirement benefits, while the remaining 120,000 monthly check are going to widows, children and dependent parents. These payments do not include some three million dollars in lump-sum benefits paid in the past year to about 20,000 individuals in the state. Single lump-sum payments are made where a worker dies without leaving anyone entitled to one of the monthly benefits.

A claim must be filed with the Social Security Administration before any benefit can be paid Mr. Milbourn pointed out. In consequence, he urged that every worker call at the local office, when he retires at age 65. That is also why the family of a person who has died should call to ask about benefits.

Temple Sisterhood **Has Donor Dinner**

Mrs. C. C. Strasburger, National Leader, Speaks On Work Of Sisterhood Federation

An excellent attendance was noted at the annual donor dinner of the Temple Israel Sisterhood, held at the Temple, Wednesday evening, starting with a full course dinner at 6:30 o'clock.

The opening prayer was given by the Sisterhood President, Mrs. Louis Sandler, prior to the dinner. Gayly decorated Spring May poles were placed at the tables, and lovely bouquets of lilies and tulips were centerpieces. Mrs. Alvin Shenkan was in charge of the decorations. Husbands of the Sisterhood members attended as guests.

Mrs. William L. Cosel capably presided as toastmistress of the dinner event. Greetings were extended to the group by N. J. Love, president of Temple Israel, and remarks were made by Dr. Iwan J. Gruen, rabbi of Temple Israel.

Roll call was held of the past presidents of Temple Sisterhood who were present and they were: Mrs. Bernard Kline, Mrs. J. S. Perelman, Mrs. David Silverman, Mrs. Morris Storch, Mrs. Edward Fisher and Mrs. Jack Gerson.

Mrs. C. C. Strasburger, national leader of Temple Federation of Temple Sisterhoods as the principal speaker of the evening, gave an educational and most inspiring address.

Mrs. Strasburger, who is president of the national organization, tied in the work of the Sisterhoods with the way of life. The speaker stressed the humanitarian direction which is needed greatly at this

time. Not only that, but cooperation with the civic and national effort is also necessary to make a better world. The main thought Mrs. Strasburger emphasized was to start with the individual spiritual needs and then to reach out and share it with the rest of the world.

Mrs. Strasburger showed how the work of the National Federation of Temple Sisterhood was departmentalized and brought down to a local level.

Following the speaker's address, an entertaining skit, "The Wonderful She," was presented, under the direction of Mrs. Myron Milbourn. Original songs for the skit were written by Mrs. Milbourn, Mrs. Lawrence Perelman and Mrs. Maurice Schoenberger.

The cast who participated in its presentation included: Mrs. Frank Baron, Barbara Silverman, Mrs. Hyman Frank, Jean Miller, Rosalyn Brown, Mrs. Myron Milbourn, Mrs. Simon Skole, Mrs. Louis Sandler, Mrs. Henry Sloan with Mrs. Eliah Kaplan as accompanist.

The chairman of the dinner was Mrs. Lawrence Perelman, and program chairman, was Mrs. R. Rubenson. Benediction by Dr. Gruen closed the program.

Ponder To Run In Preakness

By DAVIS J. WALSH
(International News Service Sports Writer)
BALTIMORE, May 12.—That last thin line of eight Preakness survivors—all that remained of a once-flourishing three-year-old division—was to go for its first, and last, gallop on Pimlico's sodden turf today before the bugle sounds its call to the post for Saturday's historic stake.

But neither the running of the famous \$75,000—added race at 1 3/16 miles nor the preliminary antics of its unhappy-looking principals seemed likely to affect the tranquil calm of the Maryland springtime.

Need Horses
Now, for that matter, center the average Marylander's complete attention upon an event which, while peculiarly his own, fails to merit his usual interest. By this time, he either knows or suspects the worst: that all the 1949 Preakness needs is the horses.

With weather and track conditions still problematical, no distinct favorite has been established 48 hours before the big race, although Ponder, Kentucky Derby winner last week, was among the Preakness octet now stabled at the scene. The Calumet-Ben Jones horse, however, was said to need a fast track if he's to repeat his Churchill Downs race at Pimlico this week end.

STRIKE DEADLINE
PITTSBURGH, May 12.—(INS)—AFL drivers of Harmony Short Line buses today set 5 a. m. tomorrow as a strike deadline. The union has rejected two company wage offers. The contract, covering approximately 125 drivers, expired April 30.

GARBAGE PAYOFF
CHICAGO.—(INS)—The International City Managers' Association reports that at least 125 municipalities charge for collection of refuse from single-family dwellings. The largest revenue from this source last year was Oklahoma City's \$506,724.

'Ambassadors'

ROBERT MARCHI, 14, chosen by Madison Square Boys club as U. S. Boy Good Will Ambassador to Mexico, points out a towering New York skyscraper to his Mexican counterpart, Javier Najera Torres, 13, who arrived by plane for National Boys and Girls Week ceremonies at City Hall. When Javier returns to Mexico, Robert will go along. Both were chosen from among thousands to represent their nations in the exchange. (International)

SHOWERS POPULAR
NEW YORK.—(INS)—A survey by the Tile Council of America indicates that 90 per cent of the nation's new urban homes have shower baths. In the 1920s, says the Council, only 20 to 30 per cent of new U. S. homes were shower-equipped.

Burning of coal was prohibited in London in 1306 because of the smoke it produced.

ONE STRIKE IN DETROIT AT END

Negotiations Also Seek Settlement Of Ford Strike But Prospects Are Dim

DETROIT, May 12.—(INS)—One strike idling 35,000 auto workers ended today and negotiators prepared to press for settlement of another—the Ford Rouge and Lincoln-Mercury walkout, which has thrown 140,000 out of work nationally.

The Motor Products company recalled the first 4,000 production employees after a dispute which erupted last Friday in a work stoppage which forced nearly 31,000 Chrysler and Budd company workers off the job.

The company had charged a

"slowdown" and the union countered that its members had been "locked out."

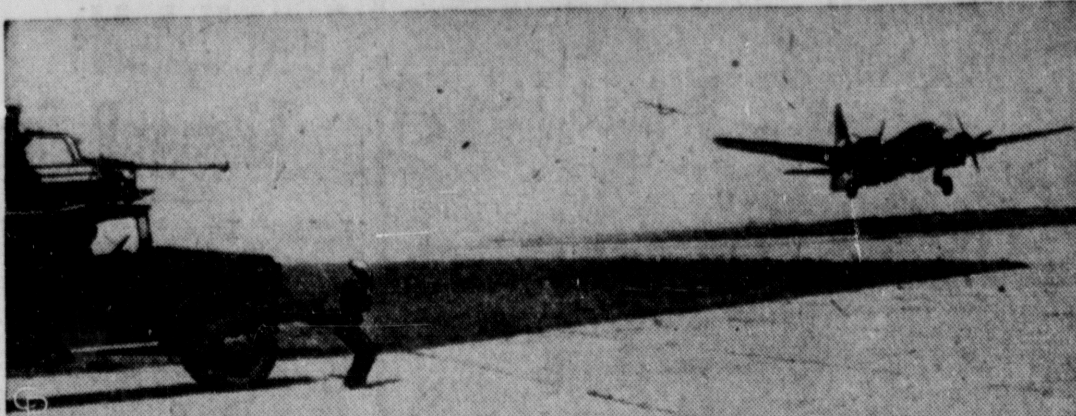

Prospects for imminent peace in the eight-day strike of 62,000 Ford wage earners remain dim.

Notice

WHEREAS, an Act of the General Assembly of the Commonwealth of Pennsylvania, approved June 25, 1947, being Act No. 481, and its supplements and amendments, authorizes boards of school directors of school districts within the fourth class to levy, assess and provide for the collection of certain taxes on persons, transactions, occupations, privileges and personal property within the limits of such school districts as the said boards may determine, subject to certain exceptions and limitations therein set forth; and

WHEREAS, pursuant to the authority conferred by the said Act, and its supplements and amendments, it is the intention of the Board of School Directors of the School District of Township of Hickory, Lawrence County, Pennsylvania, at a special meeting to be held Friday, May 27, 1949, at 8:00 p.m., to adopt a Resolution assessing, levying and providing for the collection of a tax at the rate of one per cent of the value thereof, which rate of taxation expressed in dollars and cents amounts to One Dollar (\$1.00) on every One Hundred Dollars (\$100.00) of such valuation, for general revenue purposes of the said school district as permitted by law, on all salaries, wages, commissions and other compensation earned and after July 1, 1949, by residents of the said School District, and irrespective of where the said services are performed or where the salaries, wages, commissions and other compensation are earned or carried on by such residents, irrespective of where the said profits are earned.

The reason which in the judgment of the said School Directors necessitates the imposition of the tax is the need for additional revenue for school purposes. The amount of revenue estimated to be derived from the tax is Six Thousand Dollars (\$6000.00) for the school or fiscal year beginning July 1, 1949.

The said Resolution imposing the said tax shall go into effect thirty (30) days after its adoption and within the said thirty (30) days, taxpayers aggrieved by the Resolution shall have the right to appeal therefrom to the Court of Quarter Sessions of Lawrence County upon giving bond with sufficient security in the amount of Five Hundred Dollars (\$500.00) approved by the Court to prosecute the appeal with the payment of costs. The petition shall set forth the objections to the tax and the facts in support of such objections and shall be accompanied by the affidavit of the petitioners that the averments of the petition are true and the petition is not filed for the purpose of delay.

Probe Of Slaying
Of Virginia Girl
Nears Completion

ROANOKE, Va., May 12.—(INS)—The death probe of pretty Dana Marie Weaver neared completion today with state experts analyzing stained clothing found in the home of the choir boy charged with her brutal parish house murder.

Detectives said the clothing was marked with what resembled blood and was taken from the cupboard of 16-year-old Lee (Buddy) Scott, accused of garroting his vivacious blonde school mate.

The garments were sent to the state laboratory in Richmond for chemical test.

Commonwealth Attorney C. E. Cuddy said there "are several things to be cleaned up yet" and explained that most of the unsettled matters have to do with the stained clothing.

Pozza Trains With Yarosz

Trains Daily At Monaca For Return Bout Here With Marshall

Billy Pozza, Ellwood City heavyweight, is training daily with Tommy Yarosz who Ring magazine, the fighters bible, named as the most outstanding fighter of April, because of his victory over Dave Sands, in England. They are training in Monaca. Pozza fights Len Marshall, Detroit, in a return bout here, May 13, and Yarosz, battling Chuck Hunter, Cleveland, in Pittsburgh, the same night. Marshall decisioned Pozza in their first eight round bout at Ellwood City.

Marsh vs. Peaks
The Jefferson A. C. has also matched Sonny Marsh of Niles against Duke Peaks, Youngstown negro who twice boxed Johnny Izzo, winning the first but losing the second fight on points.

Bobby Mason of Youngstown, has been picked to fight Jimmy Casson of Sharpsburg, who scored a technical knockout over Bill Bradley in Ellwood City, while Tony Arnett, Ellwood City is slated to box Frankie Romeo, of Sharpsburg.

One more bout remains to be arranged for next Wednesday night in The Arena.

Sport Club Affairs

At 1:30 p.m. Saturday: Ellwood City-Wampum Rod & Gun club will hold a trapshoot at their grounds along the Ellwood City-Wampum road, according to Harold McKim, secretary.

Lawrence County Council of sportsmen will meet one week from Friday night.

Lawrence County Sportsman's association will convene next Tuesday.

Saturday, May 14, officers of the Conservation club of the Lawrence County Sportsman's association will take 15 boys who attended their fly-tying, fly, bait and plug casting classes to fish for trout in the Slippery Rock creek, as one of the rewards for their splendid attendance and attention during the classes.

BOXING is not only a bruising, but it also is a bone-breaking business. For instance, Al McCoy hit Joe Chip in the chest and broke a bone when they boxed in Brooklyn. Johnny Slate broke the jaw of George Compton of Beaver Falls at Centennial field. Paris Cangey fractured the jaw-bone of Babe Rivers in the Opera house, and Goo Stewart fractured an arm while boxing Dick Loadman in the same Opera house. In fact, it was a broken arm that caused the late Jimmie Dime to turn from active participation to the role of tutor and manager. He incurred the fracture in a Cleveland fight. While chatting with Benny Rocco, who helped manage his brother Emmett, the heavy-weight, and Romeo Pacelli, the ex-featherweight, Romeo said he won the first "kay" in the Jolly bowl when he stopped Johnny Slate in the fifth round the night Battling Levinsky lost a 10-round decision to Emmett Rocco. An oddity also occurred that night. In the first round, one of Levinsky's gloves split open. Eddie Conner who always carried an extra set of gloves to the ringside, gave Al Lippe a glove to replace the damaged glove. In the second round, one of Rocco's gloves split, and Eddie also handed Joe Cumo a spare to replace it.

Lawrence County Sportsman's association classes for 12-18-year-olds is over until fall, when rifle and shotgun handling will be taught. Some of the youths are happy today, having been awarded nice prizes for achievement in fly-tying, bait, fly, plug casting, plant study and First Aid. It was a worthwhile movement and kept between 60 and 100 youths occupied every Monday night, and today they are excellent casters. Jess Davis, city employee, and some years ago a good hunter, is feeling much better following a siege of illness. The American Bowling congress will not hold the 1950 congress at the State Fair cattle barn, Indianapolis, because it will be impossible to install alleys without a break between each battery of eight lanes. City policemen, plus Jake Elias, armed with rifles, sought but failed to kill a fox which has been gambling at the Cascade Street dump. "Years ago fishermen were prone to eat what they could get out of a stream," said Chauncey Campbell, Lee Avenue, an ex-Harlanburg resident. "Willis McCracken told me that a crowd of Pittsburgh fishermen collected a bushel basket of 'Muscle', and after they were cleaned, ground them up like 'hamburger' and ate 'em," he said. The muscles were collected from the bed of Slippery Rock creek, he explained.

Baseball game scorers should not fail to use a deep, black pencil and assign a position to every player. Totals should be correct, and a note saying how the game was won or lost, should be attached. All scores must be in The News before eight a. m. the day following the game, otherwise it cannot be published. While motoring along the Perry highway, Here & There saw two motorists breaking branches off dogwood trees which calls for a \$25 fine upon conviction. Snapping turtles are on the prowl. A big turtle will eat five pounds of fish daily, and like snakes, turtles "account" for many fish, hence it is likely Herm Steinbrink, prexy of the LCSA may arrange a turtle and snake hunting expedition next month. Tommy Leach, JAC matchmaker, is assembling his May 18 pugilistic card, the feature of which will be a second fight between Len Marshall and Billy Pozza. Joe Chip, middleweight of years ago, now a Pottsville, Pa., shirt-cutter, was the only boxer to knock out Harry Greb. Tom Cunningham says that Judge Maxey of Scranton, told him that he knew of no line of sports produced finer characters than boxing. Tom, when a youngster, knew his boxing gloves. He appeared in several bouts here.

For consistency, in attending glove frascos, Jess Jenkins is like Ralph Dart, a regular patron, as is Bill Saul who also likes golf. Shortstop Masters of St. Margarets had eight putouts against the Dewey on Sunday. He also turned in two assists. Every Lawrence Indies player, excepting Mrozek, r. f., Pakovitch, c., and Smiley, 2b, scored against the Ecclesiastics. Gray of the "Eccs" hit two doubles. One Round Davis of fictive fame, later became a Pennsylvania State policeman, but has left the "force". Marcus White, a grappler, is yet a State "Cop". Fire Marshal John J. Hennebeck of the "Stapal" once boxed. Boxing is part of a State policeman's training at Hershey, Captain Henry having been one of the original instructors. Judge Dal Lemmon, Federal court, sentenced Donald E. Smith of Del Paso Heights, Calif., to two and a half years in prison and fined him \$2,500, for killing, transporting and selling wild ducks, violations of the Migratory Bird Treaty act.

Indians Shake Off Swamp By Beating Yankees 3 To 2

Benton's Relief Hurling Features

Bob Lemon Develops Sore Arm, Washington Wins Ninth Straight, Bucs Win

By LES CONKLIN

(International News Service Sports Writer)

NEW YORK, May 12.—That well developed Cleveland Indian flair for taking the other fellow's discards and making them pay rich dividends loomed larger than ever on the American league horizon today—in direct ratio to the details leading up to last night's 3-2 win over the Yankees.

The man who made it possible was 38-year-old Al Benton, cast off by the Tigers this year as passe and much too venerable for practical value these days. Twice before a successful "reliever" during recent days, Al did last night when he pitched to the Yankees' seven innings, after Bob Lemon strained his arm pitching to the first batter.

The Yanks got their pair in the first—without a hit, thanks to Lemon's opening pass and the fact that Benton had to take over without a warm-up. Once warmed, however, there was nothing better than Al last night before 61,472 shivering but admiring citizens.

Nats Win Ninth
Possibly more intriguing was the fact that the Washington Senators went down again, via Paul Galvetti's three-hitter and 11-1 snacker of the stunned and groggy Tigers, for their ninth straight victory.

At the Polo grounds yesterday Howard Foss pitched and batted the Reds into a 4-2 decision to tighten the National league situation to a point where only four games separated first and eighth places.

Pirates Top Bums
Bill Werle's pitching and Ralph Kiner's first inning homer let the Pirates beat the Dodgers, 5-2; Emil Kushi's relief pitching scored, 4-2, for the Cubs over the Phillies.

The single National league exception came in Boston where Warren Spahn's second three-hitter and shutout of the season gave the Braves a 7-0 romp against the once-proud Cardinals.

Speaking of that, their vis-a-vis of the 1946 world series, the Boston Red Sox hit a new low yesterday with a 12-8 beating by Chicago's earnest but blousy White Sox.

Meanwhile, the Athletics went in their swinging, and forgot to duck, losing to the Browns, 5-4.
